Whereas:

ING and the Business Partner have entered into an agreement (name agreement between ING and the Business Partner)

dated Nov 7, 2026.

In the context of the agreement between ING and the Business Partner, the Business Partner wishes to make use of the ING Developer Portal and one or more ING API's.

The Business Partner and its Team Owners and Developers to whom ING will give access to the ING Developer Portal and API must abide by this Agreement on 'Rules of the ING Developer Portal and API'.

For the avoidance of doubt, the Agreement between ING and the Business Partner does not apply to this Agreement on the 'Rules of the ING Developer Portal and API'. This Agreement on the 'Rules of the ING Developer Portal and API' is a separate agreement and must be signed by both ING and the Business Partner. If the Business Partner involves a subcontractor for the performance of the tasks set out under article 2 of this Agreement, then the subcontractor must also sign this Agreement and abide by this Agreement on 'Rules of the ING Developer Portal and API'. See on subcontracting clause 4 of this Agreement.

It is agreed as follows:

1. Team details, application details and appointment Team Owner

The Business Partner has set up an account in the Developer Portal (the **"Developer Account"**) where it has created a team (the **"Team"**) including the initial Team Owner as mentioned below and an application.

Team details

Team ID	3f3daf78-783b-4419-9df2-5d53c6fed873
Team Name	CM

The legal representative of the Business Partner hereby appoints the following natural person as its Team Owner:

Team Owner

Name and Surname	Alessandro Longoni
Email	alessandro@coinsulting.org

Application details

2. Authority of the Team Owner

The Team Owner is authorized to perform the following acts:

I. Appoint new Team Owners

Appoint and authorize one or more natural persons as new Team Owners to perform the acts under (I) up to and including (V) and amend or revoke any appointment in the Developer Account for the Team. Each Team Owner may appoint another Team Owner in its place.

II. Set up and manage applications/connectivity

Set up and manage applications/connectivity between the Business Partner's IT apps, systems, applications and the ING API's.

III. Obtain and subscribe for ING API's

Obtain and subscribe for ING API's accessible via the Developer Portal, provided no separate agreement for API's is required.

IV. Upload and manage certificates used for (II) and (III) above.

V. Appoint Developers

Appoint one or more natural persons as developers ("Developers") to perform the acts mentioned under (II), (III) and (IV) above or revoke such authority in the Developer Account.

3. Conditions

This appointment of a Team Owner is subject to the following conditions:

a) Each Team Owner and each Developer is fully competent to severally issue an unlimited number of instructions regarding the API and the Developer Account.

b) Team Owners and Developers may not perform acts with legal effect.

c) Each Team Owner and each Developer may have access to the ING's confidential or sensitive information. ING is responsible for implementing adequate measures that restrict Team Owners' and Developers' access to such information.

d) ING acknowledges and agrees that the Team shall have at least one active Team Owner for business continuity reasons. In case there is no active Team Owner, no new Team Owners and/or Developers can be appointed. Instructions can be given, and connectivity is ensured only if there is one active Developer or one active Team Owner. ING cannot re-establish the Team. ING will not be liable to the Business Partner for any loss, damage and/or any other adverse consequence of the Team not having at least one active Team Owner or one active Developer.

e) If the Business Partner has terminated the main agreement with ING or has revoked all existing authorizations of Team Owners and Developers: (I) no member of the Team can issue any instruction or perform any act on behalf of the Business Partner; and (II) connectivity to an API and the Services thereunder will no longer be available. ING cannot re-establish the Team. ING will not be liable to the Business Partner for any loss, damage and/or any other adverse consequence resulting from the revocation of the authorizations of Team Owners and/or Developers by the Business Partner. The creation and appointment of another Team has no consequences for the authorities granted under this Agreement.

f) The authorizations granted by the Business Partner to the Team Owner and the authorizations granted by a Team Owner to a Developer may be relied upon by ING Bank N.V. and/or any of its direct or indirect (local and foreign) subsidiaries, affiliates and/or branches ('ING'). The Business Partner will at ING's request ratify and confirm all acts performed by any Team Owner and/or any Developer. The Business Partner will indemnify ING and keep ING indemnified against all

costs, claims and liabilities which ING may incur because of ING relying on the authorizations granted by the Business Partner to the Team Owner and the authorizations granted by a Team Owner to a Developer.

g) The Business Partner is entitled to revoke the authorization of the Team Owner at any time through the Developer Portal.

h) The Business Partner is obliged to implement the necessary safety measures to avoid a situation where unauthorized persons initiate instructions.

i) The Business Partner herewith expressly acknowledges and agrees that individual Developers and Team Owners cannot be identified by ING, the Developer Portal or any API and that ING is unable to check whether or not an instruction is initiated by an authorized Developer or Team Owner. As a consequence, all instructions received through the Developer Portal or an API will be deemed to be issued by authorized Developer(s) or Team Owner(s) and the Business Partner explicitly agrees that ING will not be liable for any and all consequences of instructions issued by unauthorized persons.

j) The Business Partner is obliged to identify and monitor which instruction is initiated by which Developer or Team Owner and implement the necessary safety measures to avoid a situation where unauthorized persons have access to the ING Developer Portal and API and initiate instructions. The Business Partner undertakes to securely store all data regarding the access to and the use of the ING Developer Portal and API.

k) The Business Partner shall not use the ING Developer Portal and API for activities or purposes that are in violation of any law or regulation, or that can have a detrimental effect on the reputation of ING or on the integrity of the financial system.

4. Subcontractor

a) If the Business Partner involves a subcontractor for the performance of the tasks set out under article 2 of this Agreement, then the Business Partner shall (1) impose the obligations and other provisions of this Agreement on the subcontractor, and (2) oblige the subcontractor to sign the Agreement.

b) The Business Partner shall provide ING with the Agreement signed by the subcontractor.

c) The liability of the Business Partner towards ING shall not be limited or reduced if the Business Partner engages a subcontractor and/or third parties to carry out the work of Article 2 of this Agreement. Despite the engagement of subcontractors and/or third parties in carrying out the work of article 2 of this Agreement, the Business Partner remains fully liable to ING for the consequences of subcontracting services in whole or in part to subcontractors and/or third parties. The Business Partner indemnifies ING against all claims from subcontractors and/or third parties engaged by the Business Partner.

5. Authorization Instrument

a) A Business Partner must have an Authorization Instrument to access the Developer Account, upload certificates and create applications/connections to APIs. The Business Partner shall use an Authorization Instrument in accordance with the Agreement and instructions or information on the use of an Authorization Instrument provided by ING. The Team ID, the Business Partner's certificates uploaded in the Developer Account, the Business Partner's ID generated in the Developer Account and a Business Partner's, Team Owner's and Developers' credentials to the Developer Account (whether used jointly or individually) are Authorization Instruments.

b) ING may assign a validity period to an Authorization Instrument and ING is entitled to shorten or extend such validity period at any time.

c) An Authorization Instrument is, unless indicated otherwise, strictly personal and non-transferable and may not be changed, copied or reproduced.

d) If an Authorization Instrument is provided by a third party, ING is not a party to the agreement between the Business Partner and the provider of such Authorization Instrument and all costs relating thereto shall be for the Business Partner's account. ING will not be liable for any loss and/or damage, of any nature whatsoever, incurred by the Business Partner relating to the services offered by such third party.

e) The Business Partner shall upon receipt of an Authorization Instrument take all measures required by ING to keep the Authorization Instrument and its personalized security features safe. The Business Partner shall furthermore take any measure that can reasonably be expected to ensure the security of the personalized security features and shall keep these features, including its electronic Signature and password, secret from all others. The Business Partner shall store the Authorization Instrument in a place to which third parties have no access. Subject to evidence to the contrary, the fact that a personalized security feature and/or Authorization Instrument is used by a third party will constitute proof that the Business Partner has failed to keep or store such items safe and secure and that they were accessible to third parties. The Business Partner shall ensure that Users shall observe and comply with all obligations of this Clause.

f) The Business Partner shall take note of the information provided by ING in relation to the secure use of an Authorization Instrument and the measures that the Business Partner must take to prevent fraud or other misuse of such Authorization Instrument and shall act, and shall ensure that Team Owners and Developers shall act, in accordance with such information. ING may change such information and in urgent situations such changes can be applied by ING with immediate effect. ING will inform the Business Partner accordingly.

6. System requirements and security

a) The Business Partner shall comply with and act upon the most recent instructions and system, software and other requirements for implementing, accessing and using the ING Developer Portal and API as stated by ING. ING will not be liable for any loss and/or damage incurred by the Business Partner as a result of (I) changes to the software or equipment supplied by ING or a third party, (II) improper functioning of equipment or software belonging to the Business Partner, (III) failure to act upon instructions of ING or (IV) failure to comply with the conditions for implementation, access and use of the ING Developer Portal and API.

b) The Business Partner will need to have software for connecting to and communicating with the ING Developer Portal and API and internet access or access to an electronic communication network. ING is not a party to any agreement in this respect between the Business Partner and its provider. All costs of access to and use of the services offered by these providers will be for the Business Partner's account and ING will not be liable for any loss and/or damage incurred by the Business Partner relating to the services offered by those providers.

c) The Business Partner is responsible for the security of the systems and devices used to access the ING Developer Portal and API. Without prejudice to the foregoing, the Business Partner is obliged to ensure that up-to-date anti-Virus software, anti-spyware software, firewall software or any other relevant security tools are used to ensure the security of (the access to) the ING Developer Portal and API and Services accessible via the ING Developer Portal and API. Should the Business Partner discover or suspect a virus, spyware or unauthorized access to the ING Developer Portal and API the Business Partner shall inform ING without delay and shall immediately take all necessary measures to prevent any loss and/or damage. ING reserves the right to block access to (part of) the ING Developer Portal and API following any such report.

d) The Business Partner shall ensure that correct log-off procedures are followed when exiting or leaving the ING Developer Portal and API, computer or other applicable device unattended. The Business Partner shall further take all reasonable precautions to prevent unauthorized use of the ING Developer Portal and API to prevent unauthorized use of the ING Developer Portal and API and the operating stations or IT systems from which the ING Developer Portal and API can be accessed.

7. Term and termination

a) This Agreement and the authorizations granted hereby to Team Owners and Developers are valid until revoked by the Business Partner. The Business Partner must immediately notify ING in a form acceptable to ING of the expiry, revocation or amendment of any of the authorizations of a Team Owner or a Developer. Until ING receives such notification any authorization shall, irrespective of any registration with any public record of the details and/or any changes to it, remains in full force and effect. ING may (continue to) execute instructions that have been given to ING by such Team Owner or Developer prior to or shortly after ING has received such notification if ING cannot reasonably prevent the execution thereof. The revocation, expiry or amendment of any authority does not have any consequences for nor shall affect (the validity of) (I) an instruction with a scheduled execution date after the revocation, expiry or amendment, or (II) an authorization granted by a Team Owner prior to such revocation, expiry or amendment.

b) The Business Partner may at any time terminate the Agreement in writing with a one (1) month notice period. The notice period will be calculated from the first (1st) day of the calendar month following receipt of such notice of termination.

c) ING may at any time terminate the Agreement in writing on a two (2) months' prior notice.

d) ING is authorized to terminate the Agreement, terminate, or block access to the Developer Portal or the provision of one or more ING APIs, or suspend the performance of its obligations under the Agreement, with immediate effect, without being required to pay damages or any form of compensation:

I. if it is unlawful for ING to continue the access to the Developer Portal or the provision of one or more ING APIs offered by the Agreement;

II. if ING has established or reasonably suspects that the Business Partner uses or used the ING Developer Portal or one or more ING APIs for activities or purposes that (I) are contrary to laws and regulations, (II) can harm ING's reputation, or (III) undermine the integrity of the financial system.

8. Applicable law and jurisdiction

a) This Agreement and the relationship between the Business Partner and ING regarding the Developer Portal, API's and Services and any non-contractual obligations arising out of or in connection therewith, will be governed by and construed in accordance with the laws of the Netherlands. The authority granted by the Business Partner (directly or indirectly) to each Team Owner and Developer will be governed by the laws of the country of incorporation of the Business Partner.

b) Excluding any out-of-court complaint and/or redress procedure, ING and the Business Partner hereby irrevocably submit to the exclusive jurisdiction of the courts of Amsterdam. If ING is acting as the plaintiff, ING may (if permitted by law) take proceedings to another competent court and/or concurrent proceedings in any number of jurisdictions.

9. Definitions

Terms used in this Agreement have the following meanings:

Agreement
This Agreement on the ‘Rules of the ING Developer Portal and API’.

API
ING’s application programming interfaces that are available through the Developer Portal.

Authorization Instrument
The procedures and instruments as indicated by ING that the Business Partner or its Team Owner and Developers use to access and use the ING Developer Portal and API and/or give (consent to) an instruction to ING.

Business Partner
A business partner is a party that enters into an agreement with ING but does not act in the capacity of Client of ING. Examples: a service provider, a joint venture party.

Developer
Any member of a Team that is authorized by a Team Owner on behalf of the Business Partner to electronically perform the acts and issue instructions as specified in this Agreement on behalf of the Business Partner through the Account or such other electronic channel as indicated by ING.

Developer Account
The Business Partner’s account in the Developer Portal through which a Team Owner on behalf of the Business Partner can (I) set up and manage applications/connectivity between its IT apps/systems/applications and the APIs, (II) upload and manage certificates used to that extent, (III) appoint Team Owners and Developers, and (IV) obtain services.

Developer Portal
ING’s developer portal which can be accessed through https://developer.ing.com/openbanking/home.

Team
A group of persons including a Team Owner and Developers.

Team Owner
A person who is directly authorized by the Business Partner to perform certain acts for and on its behalf.

Annex 1 Security Rules

The Business Partner is obliged to ensure that Team Owners and Developers are bound by and shall observe and comply with all obligations as indicated in the Rules of the ING Developer Portal and API. Each Team Owner or Developer must take all conceivable measures for the secure use of the ING Developer Portal and and the safekeeping of (a personalised security feature of) an Authorisation Instrument. This annex to the Rules of the ING Developer Portal and API contains a non-exhaustive high level summary of the security rules a Team Owner or Developer should observe. ING has the right to revise these Security Rules with immediate effect and will inform the Business Partner as soon as that is possible of the revision of the Security Rules. If the Business Partner involves a subcontractor or other third party for the performance of the tasks set out under article 2 of this Agreement, then the Business Partner shall inform the subcontractor or another third party as soon as possible on the revisions of the Security Rules.

When you use an ING App it is your responsibility to use The ING App in a secure manner. This means observing these Security Rules:

Keep your security codes secret
Security codes are passwords, PIN codes and all (other) personalised security features of an “Authorisation Instrument” (any procedure or instrument used to access and use a service of ING and/or give (consent to) an instruction to ING).
- Your security codes are personal: never let anyone else see them and never tell anyone what your codes are.
- Do not write your security codes down or save them in a file. If you have to keep a reminder, make sure it isin a form that will only make sense to you.
- If the system allows you to choose a password, username or PIN, make sure that it is not easy to guess. For example, do not use birthdays, names of family members or postal codes.
- Be careful not to let anyone see what you are keying when you enter a code.
- Never reveal security codes to anyone who asks for them, e.g. on the phone, in an email, an SMS, WhatsApp message or face-to-face. ING staff will never ask you for your codes.

Don’t let anyone else use your personalised Authorisation Instrument
- Be aware when using your Authorisation Instrument.
- Always keep your Authorisation Instrument in a safe place and take care not to lose it.
- Regularly check that you still have your Authorisation Instrument in your possession.

Make sure all the devices you use communicating with ING have proper security protection
- The devices you use for communicating with ING, such as your mobile phone, tablet or computer, must have an original operating system that is kept updated to the latest version.
- The software you use must always be up to date. If you use an App to access an ING Channel, always install the latest version.
- A computer or laptop you use for an ING App or other ING Channel must have security protection in the form of antivirus software and firewall.
- Do not install any illegal software.
- Secure access to your mobile phone, tablet or computer by means of an access code.
- Make sure nobody else can use your ING Channel account or App. Never leave your computer, laptop, tablet or mobile phone unattended while logged into the ING Channel or having opened the App. Always log out and lock your device before leaving it unattended or when you have finished using an ING Channel or App.
